SKILLS

HTML5 – Semantic structure, SEO-friendly

CSS3 – Styling, animations, layouts

JavaScript (ES6+) – Logic, DOM, APIs

React.js – Components, hooks, state

Tailwind CSS – Utility-first styling

Bootstrap – Quick responsive design

Git & GitHub – Version control, collaboration

RESTful APIs – Data fetching, integration

Responsive Web Design – Mobile-first approach

UI/UX Basics – User-friendly interfaces

Netlify / Vercel Deployment – Fast hosting, CI/CD

Chrome DevTools – Debugging, performance check

npm / yarn – Package management tools

EDUCATION

FSc : Aspire College (2023)

Web Development : Started Web Development through YouTube (2025)

PROJECTS

A FULLY FUNCTIONAL CALCULATOR

Developed a fully functional calculator using HTML, CSS, and JavaScript featuring real-time input handling, dynamic calculations, error validation, and a responsive user-friendly interface optimized for both desktop and mobile devices.

🔗 https://github.com/YounisRafiq/A-Fully-functional-Calculator.git

A STRONG PASSWORD GENERATOR

Built a strong password generator using HTML, CSS, and JavaScript, enabling users to create highly secure and customizable passwords with adjustable length, inclusion of special characters, and real-time copy-to-clipboard functionality.

🔗 https://github.com/YounisRafiq/Strong-Password-Generator.git

AN ECOMMERCE WEBSITE

Frontend Developer specializing in building modern, responsive, and user-friendly eCommerce websites. Skilled in React.js, Tailwind CSS, and API integration to create seamless shopping experiences with dynamic product catalogs, secure payment gateways, and optimized performance.

A TEXT TO SPEECH CONVERTOR

Developed a Text-to-Speech Converter using HTML, CSS, and JavaScript that converts user-input text into natural-sounding speech with multiple voice options and adjustable speed, providing an accessible and user-friendly experience.

🔗 https://github.com/YounisRafiq/Text-to-Speech-Convertor.git

A REAL TIME STOPWATCH

Created a functional stopwatch using HTML, CSS, and JavaScript with start, stop, reset, and lap time features, delivering precise time tracking with a clean and responsive user interface.

🔗 https://github.com/YounisRafiq/StopWatch.git

A BEAUTIFUL WETHER APP

A simple yet elegant weather app that delivers accurate, real-time forecasts. Stay updated with temperature, conditions, and location-based weather — all in one place.
