Am a passionate Full Stack Developer with hands-on experience in building responsive and dynamic web applications using technologies like HTML, CSS, JavaScript, React, Node.js, and Express. I enjoy turning complex problems into efficient, user-friendly solutions, and I am skilled at both front-end design and back-end functionality.

PORTFOLIO PROJECTS

MOVIE APP

ReactJs Project

Tech : HTML , CSS , Javascript , ReactJs

- Built dynamic movie listings and interactive UI in React.js
- Fetched real-time movie data via APIs and displayed it by category.
- Live : <https://movie-lab-movie-discovery-platform.vercel.app/>

ZOOMI - SOCIAL MEDIA APP

Full Stack Project | MERN Project

Tech : MongoDB , ExpressJs , ReactJs , NodeJs , API Integration

- Built and collaborated on social media features, enabling seamless user interactions and post management.
- Managed and updated user videos, profiles, and interactions to ensure smooth app functionality.
- Implemented tools and features to optimize app performance and enhance user experience.
